This is a very good company that cares about its customers. Use their online booking calendar to make an appointment. Rich is a great guy. Honest, experienced, good communicator, and good prices. Rich fixed my central cooling system in my primary home and installed two mini splits in my rental house. Highly recommend.

Rich is very professional and responsive. He fixed some issues with my gas heater and was very communicative in helping me understand the issue. I've also called upon him to fix my central air which decided to stop in the midst of a heat ... [More](#)

Rich put in a completely new, 3-zone HVAC system and a garage heater into our home in 2021. We wanted Nest thermostats and Rich was very comfortable with that aspect of the install. He's serviced the system since then. We were very pleased with everything and would highly recommend Advanced Heating & Cooling.

it is very hard to find people who you can trust to do the job correctly. Rich is professional, and someone who is honest and dependable. He will answer every question and be there for you. I would recommend him for any Heating & cooling work you need.
